# For emergency and other situations requiring continuous connection

https://manual.amnimo.com/docs/uncategorized/for-emergency-and-other-situations-requiring-continuous-connection/

Edge gateways, like other wireless devices, operate using wireless signals and cannot guarantee connectivity in all situations. Therefore, you should not rely solely on the wireless device for emergency communications or use the device in situations where interruption of data connectivity could result in death, personal injury, property damage, data loss, or other loss.
