Setting up recording

Camera Setting · https://manual.amnimo.com/docs/camera-setup-and-en/setting-up-recording-2/

Recording can be set for each camera.

In order to start recording, the "Start Using" setting must be configured first. (See "Initial Setup - Setting Up Camera Authentication and Start Using")

1. On the camera for which you want to configure recording settings, click the icon and then click Recording Settings.

2. Move the Recording toggle to the right to ON.
