Edit the camera icon

Camera icons can be repositioned and oriented. In this section, we will show you how to edit camera icons.

1. From the camera list, select the name of the camera whose camera icon you wish to edit and click on the settings icon.

2. Click on the camera icon to change its orientation, drag it to a new position, and then click on "Decide.

3. Confirm that the camera orientation and position have been changed.
