Internal wiring and wiring treatment

necessities

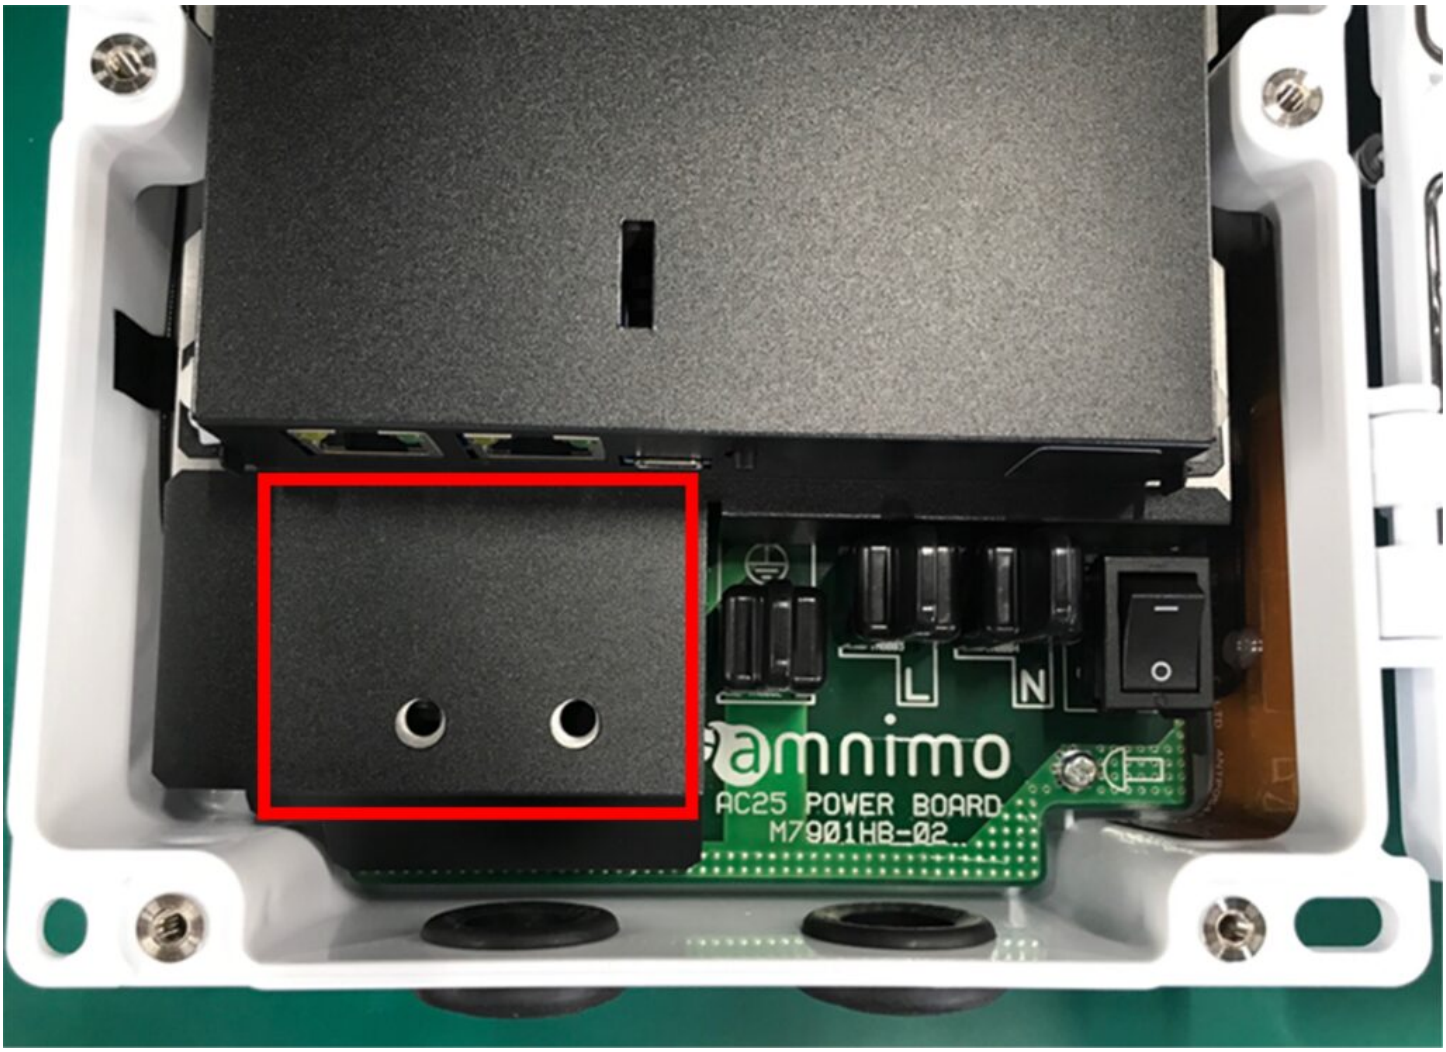
Cable ties for fixing cables (2 pcs. included) *If you need more, please procure and use the following model number.

- (Recommended) Takeuchi Kogyo Reuse Snapping Ties RST-130V0

Wire connection example

Since cables are not fixed when using PF Suga, the following procedure can be used to fix cables to prevent stress on connectors and terminal blocks.

Fittings for fixing cable clamps, shown below, are provided so that they can be fixed through cable ties.



Connect the power and LAN cables and adjust their lengths with cable clamps.
