Disable PTZ operation

Camera Setting · https://manual.amnimo.com/en/docs/camera-setup-and-en/disable-ptz-operation/

Set this option if you want to disable PTZ operation from the Cloud Video Recorder. This setting cannot be changed if the camera does not support PTZ.

1. On the camera of interest, click the icon and then click Advanced Settings.

2. Click on the PTZ Inhibit Operation toggle to move it to the right.
