SIM card setup (AB12)

Network configuration (Amnimo Portable Device NP) · https://manual.amnimo.com/en/docs/network-configuration-amnimo-portable-device-np/sim-card-setup-ab12/

Remove the back cover.

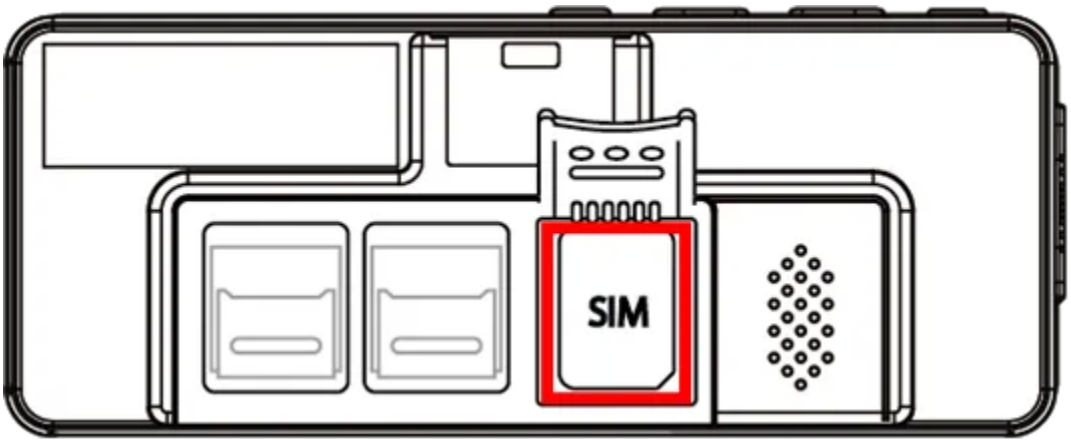

Slide the SIM card slot cover to unlock it.

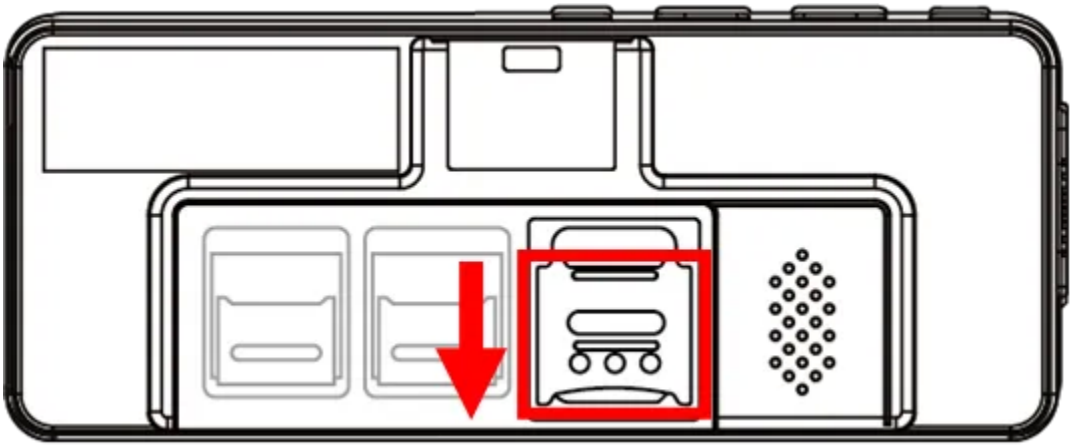

Open the SIM card slot cover and place the nano-SIM card in the correct orientation (with the notch in the nano-SIM card at the bottom right).

WARNING

- Handle slot covers with care as they are easily damaged.
- Be careful not to injure yourself on the slot cover.
- Do not open the other slot covers (left and middle).

Close the SIM card slot cover and slide the slot cover to lock.

After the SIM card has been inserted, firmly close the rear cover so that it "clicks" into place.
