Search Events

Operation of the Event List screen · https://manual.amnimo.com/en/docs/operation-of-the-event-list-screen-en/search-events/

The Event List screen allows you to search for existing events by event type, tenant name, or event status (detected/processing/completed).

Example: Search by tenant name

If you have a large number of events, you can use the advanced search function to narrow your search.

By specifying each of the following items, you can filter and display the events you wish to check.

- Date
- Camera Selection
- Tenant Selection
- event selection
