Access control based on sign-in source IP address

Other · https://manual.amnimo.com/en/docs/other/access-control-based-on-sign-in-source-ip-address/

If the sign-in source IP address is registered in advance and access from other sources is confirmed, the login can be denied.
If you do not specify the sign-in source IP address, access is available from all IP addresses.

If you wish to register the IP address from which you are signing in, please contact your **Amnimo sales representative** or **Amnimo Customer Support** below.
