Safety and Modification Precautions

For the protection and safety of the human body and this AMNIMO Portable or the system containing this AMNIMO Portable, please follow the safety instructions in this manual when handling this AMNIMO Portable.
We cannot guarantee the safety of the product if it is handled in a manner contrary to these instructions.
Unauthorized modification of this Amnimo Portable is strictly prohibited.

For safe use

The precautions in this section are intended to help you use your AMNIMO portable safely and correctly and to prevent harm or damage to you or others.

The contents that may occur if the product is mishandled are classified into two categories: "WARNING" and "CAUTION". Since all of these are serious safety-related information, please use the AMNIMO Portable with a good understanding of the contents of the indications.

warning sign

 Warning.	Degree of injury that could result in death or serious injury*1 to the user if mishandled.

 attention (heed)	Degree of harm or damage that could result in minor injury*2 to the user or property damage*3 if the product is mishandled.

1 Serious injury is defined as loss of sight, injury, burns (hot or cold), electric shock, broken bones, poisoning, etc. that result in permanent damage or require hospitalization or long-term hospitalization for treatment.
2 Minor injuries include injuries, burns, and electric shock that do not require hospitalization or long-term hospitalization for treatment.
3 Property damage refers to extended damage to the house, household goods, livestock, pets, etc.

The following symbols also explain what is prohibited or enforced.

Mark indicating prohibited/forced content

	It is a "prohibited" content that should not be done.
	This is the "mandatory" content that must be implemented.

Handling of AMNIMO Portable Main Unit

 Warning.		Do not disassemble or modify the product. Failure to do so may cause fire, electric shock, or injury. Do not insert pins, wires, or other metal objects into the main unit. Abnormal operation may cause injury, electric shock, or malfunction. Do not allow children to use it alone or keep it out of the reach of young children. Failure to do so may cause electric shock, injury, or burns. Do not use organic solvents or detergents such as benzene or thinner for cleaning. This may cause discoloration, deformation, or damage. Use the supplied USB power adapter for the power source, and do not use anything other than the rated voltage. Failure to do so may cause malfunction, fire, or electric shock. Do not stack units when the power is on. The bottom surface (the surface to which the nameplate is affixed) may become hot, which may cause burns or affect other equipment. Keep the product away from fire or other hot sources of heat. Do not expose the product to sunlight for long periods of time.
		In case of abnormality or malfunction, unplug the power cable immediately and discontinue use. Using the product as is may result in fire, electric shock, or injury.
