Safety and Modification Precautions

For the protection and safety of the human body and this AMNIMO Portable Device NP or the system containing this AMNIMO Portable Device NP, please follow the safety instructions in this document when handling this AMNIMO Portable Device NP.
We cannot guarantee the safety of the product if it is handled in a manner contrary to these instructions.
Unauthorized modification of this AMNIMO Portable Device NP is strictly prohibited.

For safe use

The precautions in this section are intended to help you use the AMNIMO Portable Device NP safely and correctly and to prevent harm or damage to you or others.

The contents that may occur if the product is mishandled are classified into two categories: "WARNING" and "CAUTION". All of these are serious safety-related information, so please use the AMNIMO Portable Device NP with a good understanding of the contents of the indications.

warning sign

 Warning.	Degree of injury that could result in death or serious injury*1 to the user if mishandled.

 attention (heed)	Degree of harm or damage that could result in minor injury*2 to the user or property damage*3 if the product is mishandled.

1 Serious injury is defined as loss of sight, injury, burns (hot or cold), electric shock, broken bones, poisoning, etc. that result in permanent damage or require hospitalization or long-term hospitalization for treatment.
2 Minor injuries include injuries, burns, and electric shock that do not require hospitalization or long-term hospitalization for treatment.
3 Property damage refers to extended damage to the house, household goods, livestock, pets, etc.

The following symbols also explain what is prohibited or enforced.

Mark indicating prohibited/forced content

	It is a "prohibited" content that should not be done.
	This is the "mandatory" content that must be implemented.

AMNIMO Portable Device NP Handling of the main unit

 Warning.		Do not disassemble or modify the product. Failure to do so may cause fire, electric shock, or injury. Do not insert pins, wires, or other metal objects into the main unit. Abnormal operation may cause injury, electric shock, or malfunction. Do not allow children to use it alone or keep it out of the reach of young children. Failure to do so may cause electric shock, injury, or burns. Do not use organic solvents or detergents such as benzene or thinner for cleaning. This may cause discoloration, deformation, or damage. Use the supplied USB power adapter for the power source, and do not use anything other than the rated voltage. Failure to do so may cause malfunction, fire, or electric shock.
		In case of abnormality or malfunction, unplug the power cable immediately and discontinue use. Using the product as is may result in fire, electric shock, or injury.

Handling of Magnetic Clips

The magnetic clips included with this product have extremely strong magnetic force.

 Warning.		Do not wear the magnetic clip near the chest if you have a pacemaker, implantable cardioverter-defibrillator, or other medical device. Magnetic forces may interfere with medical devices and cause malfunctions.
 attention (heed)		Keep away from magnetic recording media such as credit cards and traffic IC cards. Magnetic force may interfere with and damage the product.
